FROM PAUL WEBER, DIRECTOR OF INFORMATION TECHNOLOGIES
The Law School and BlackBoard system
Spring 2011

BlackBoard is a University supported web site that facilitates course communication and the distribution of course-related electronic documents. BlackBoard has an easy to use interface with many features including email, discussion groups, and electronic drop boxes.

The IT department has developed a BlackBoard site for each Law School course and the titles are in the form of a law prefix with the course number and section number, the course title and the professor’s last name, followed by the semester and year [example: law7831-1 Epicurean Law Professor Maypops Spring 2011]. You can also search for all Law courses under the BlackBoard catalog.

BlackBoard accounts have been set up for all law school students. Students can log into BlackBoard using their NetID login and password.

After logging in, students will see a heading on the right side of the window called “My Courses.” Under “My Courses” a list of courses for each student who has been admitted will be displayed.

During Add-Drop, we will be populating BlackBoard once a day. This will add students to courses. Unfortunately, due to BlackBoard system limitations, we will not be able to remove students from courses that they have dropped, **until after Add-Drop has ended.** That means two things:

1. if an instructor sends an email to students in a course, students who have dropped that course will still receive the email; and

2. students who have dropped courses will still see them under the “My Courses” heading and will still have access to them. After Add-Drop has completed, we will remove non-enrolled students from BlackBoard course sites.

Please note: not all faculty members use the BlackBoard System. Please consult with your instructor for each course to see if they are using BlackBoard.

If you would like to view the tutorial that was presented as part of the Information Technologies Orientation presentation, go to the Registrar’s website: [http://registrar.lawschool.cornell.edu](http://registrar.lawschool.cornell.edu) and then click on the link for **My Information/BlackBoard.**

Grades will be based on several short papers. Please note that this is not a law course, and we will not consider the ABA Model Rules or any other aspects of the law governing lawyers. Rather, the course takes an interdisciplinary approach, drawing from social and organizational psychology, to consider the determinants of ethical fiascoes in organizations. It is intended to complement, not replace, the survey course on the law governing lawyers. If you are looking for a course to help you prepare for the MPRE, this is not it.

Evidence—Colb
Hi students. Welcome to Evidence! This post contains the assignments for your first week of Evidence class. I use abbreviations in my assignments, so here are the meanings of various abbreviations:

The abbreviations “t”, “b”, and “m”, respectively, refer to the top of an assigned page, the bottom of an assigned page, or the middle of an assigned page.

Each assignment, including both the casebook pages and supplement pages listed, is to be read prior to the class for which it is assigned. (1) refers to the first class, (2) to the second, and so on. You do not need to read the “Problems” that appear in the book unless they are specifically assigned in the syllabus. The first class will meet on Monday, January 24. Our meeting times will be Mondays, Tuesdays, Wednesdays, and Thursdays, from 1:25-2:20 p.m.

Legal Aspects of Commercial Real Estate Development-Blyth

Read Hamburger and Schueller, Letters Of Intent - A Trap For The Unwary, 37 Real Property Probate and Trust Journal 509 (Fall 2002). Then prepare, bring to class, and hand in (but not for a grade) a Letter of Intent, no more than four (4) pages, double spaced, legible font size, for your client, Mr. Big, to buy Triphammer Mall. On an additional page, Schedule A, list those common sense items of due diligence which you believe must be performed by your client in order to convince Mr. Big to do the deal.

If you prefer, and if you believe your client would be better suited, prepare and bring to class a term sheet for the above transaction. Why might you prefer to use a term sheet instead of a letter of intent?

Is caveat emptor alive anymore? What, if anything, is the owner of Triphammer Mall under a duty to disclose to Mr. Big about the condition of the Mall?

If the parties agree that Mr. Big will buy the Mall in an “as is” condition, how successfully may Mr. Big later argue misrepresentation if the owner fails to disclose the existence of asbestos in the premises?

Under what circumstances would you recommend to Mr. Big that he dispense with all of the foregoing, save some legal fees, and simply buy the property without any letter of intent, term sheet, or purchase agreement after performing whatever due diligence he thought appropriate?
